

### **REMARKS**

Claims 1, 2, 4-10, 14-20 and 27-36 are pending in this application. Of these, claims 1, 5, 27, 34, and 35 are independent. By this paper, claims 1, 5, 27, and 34 have been amended. Reconsideration of this application, in view of the foregoing amendment and the following remarks and arguments, is respectfully requested.

#### **Examiner Interview**

Applicants and Applicants' undersigned representative thank the Examiner for the courtesy offered in the Examiner Interview on March 10, 2010. In that interview, the Examiner and the undersigned representative discussed the pending claims, support for the claims in the specification, and the claims condition relative to the cited references. Applicants understand that amending the claims to recite "discrete" recessed surfaces and amending the claims to recite "separate and spaced" motion controlling members would place the claims in condition for allowance.

#### **Amendments to the Claims**

This paper amends independent claims 1, 5, 27, and 34 to recite the "discrete" and "separate and spaced" limitations consistent with the discussion in the Examiner Interview. Accordingly, Applicants respectfully request that the Examiner allow these claims.

Note that the amendments to claims 27 and 34 include the "discrete" limitation only on the first plate.

#### **Independent Claim 35**

Independent claim 35 is not amended by this paper. Applicants respectfully request that the Examiner consider this claim and pass it to allowance. Applicants submit that claim 35 should be allowable over the known references.

Conclusion

An early formal notice of allowance of claims 1, 2, 4-10, 14-20 and 27-36 is requested. The Examiner is invited to telephone the undersigned at 972-739-6969 to discuss the claims in order to speed the prosecution of the application.

Respectfully submitted,

/Dustin T. Johnson/
